With an Irvine Florist Corporate Sales Basic Employee Benefit Package, you can give your employees the benefit of being able to order flowers and gifts for their loved ones at a 10% discount off of our regular retail prices. Your employees can order over the phone or over the internet, receive a 10% discount, and thank you for providing them with the discount, all at no cost to you.

Branded Employee Benefit Package

With our Branded Employee Benefit Package, your employees get the same 10% discount, but for the low cost of \$180, we will brand the site they go to with your company's logo.

Personalized Employee Benefit Package

With our Personalized Employee Benefit Package, you have the opportunity to increase your discount up to 20% for both your Corporate Sales account and your Employee Benefit Package account. Your employees will be given access to a company-branded web site that grants them the ability to order flowers at variable discount rates from 0%-20%. The discount rates could be based on different levels of employment such as position within the company or tenure with the company. This web site will be designed with a back-end database and employee log-in and will carry a set-up fee of \$90 per hour. A Personalized Package will require company involvement in the process and will carry varying set-up costs based on your company's number of employees and different levels of employment benefits.
