A New Perspective on Healthcare IT

Consulting | Technology | Software

“ Neudesic took our broad stroke visions and created a new site that ultimately exceeded our expectations. ”

- Greg Taylor, Regional Behavioral Health Authority

Maximize the Impact of Your IT Investment

Healthcare IT executives are routinely charged with effectively implementing and maintaining systems while keeping an eye on the bottom line. A recent HIMSS Leadership Survey found that 94% identified driving value from IT investments as a priority in their role. This is no easy feat in today's marketplace where "on-time and on-budget" are far from the norm. Fortunately, Neudesic clients experience a different reality, noting rapid deployment of high-quality solutions as a strong suit, according to a recent independent client satisfaction survey.

Many healthcare organizations and their stakeholders are reaping the benefits of Neudesic's expertise, from mobility and workforce collaboration to cloud computing and CRM. Health IT is undergoing dramatic change due to healthcare reform and shifting patient expectations – and Neudesic has built a reputation as a trusted technology partner in business innovation within this space.

Core Services

Neudesic: A History of Improving Healthcare IT

BI for Intelligent Insight into Patient Data

Neudesic worked with FMC to provide quick and easy access to the organization's data using Microsoft BI tools. Reporting is now automated, and data is accurate and more accessible through a new mobile dashboard.

“ Neudesic was key to our automation project, enabling us to eliminate our labor intensive reporting processes and refresh our financial system up to 12 times daily. ”
- Helge Hoehn, Senior Project Manager, Fresenius

Cloud Expertise Enables Patient Peace of Mind

Neudesic helped 12th Man Technologies develop an easy-to-use web-enabled device to give seniors the critical functionality they need for independent living, while providing the connectivity features that family and caregivers require for peace of mind.

“ Without Neudesic's experience--from cloud to mobility--we never could have achieved our vision to give seniors independence and peace of mind. ”
- Alex Stenzler, President, 12th Man Technologies

CRM Capabilities Assure Patient Safety & Satisfaction

Neudesic helped AMN save over \$50,000 in future technology investments by consolidating its current systems to provide a clear single-source view of and mobile access to AMN's customer data.

“ Touching all of your customers through CRM is very beneficial. If we aren't, Neudesic's solution will notify us through reports and automated activities. ”
- Patrick Conerty, AMN Healthcare
